## 4.3mil White Foil Retort/Liqui-Pac Film

### Description

4.3mil retort/liquid-Pac film is the hottest market in packaging and is gned for producing retort/aseptic spouted pouches. Suitable for any liquid packaging requirement, stick packs or gourmet coffee bag application. High gloss 4.3mil multi-layer construction of heat-sealable FDA compliant food grade HDPE film, aluminum foil barrier layer with a white OPP outer layer. Film is mounted on a strippable liner that allows for trouble free transport and printing on any UV, Eco-solvent or Latex printer. Once printed it can be used in the flat as a proof or assembled into a functional package using conventional heat sealing equipment. For thicker constructions, add a layer of JetComp 8200 clear or 8201 matte pressure sensitive PET over-laminating film. For a thin Matte finish use Krylon 53530 Flat Arcylic Crystal Clear Sray.

### Available Sizes

- |                   |              |
|-------------------|--------------|
| • 24" wide x 50'  | #8505-24-50  |
| • 24" wide x 100' | #8505-24-100 |
| • 52" wide x 50'  | #8505-52-50  |
| • 52" wide x 100' | #8505-52-100 |

### Features

- Works on all UV, Eco-solvent or Latex printers
- Heat sealable at 210 - 250 F.
- Good moisture and odor barrier for product protection
- High Gloss
