4.3mil White Foil Retort/Liqui-Pac Film

Description

4.3mil retort/liquid-Pac film is the hottest market in packaging and is designed for producing retort/aseptic spouted pouches. Suitable for any liquid packaging requirement, stick packs or gourmet coffee bag application. High gloss 4.3mil multi-layer construction of heat-sealable FDA compliant food grade HDPE film, aluminum foil barrier layer with a white OPP outer layer. Film is mounted on a strippable liner that allows for trouble free transport and printing on any Epson SureColor P-Series, HP DesignJet or Canon imagePrograf printer. Once printed it can be used in the flat as a proof or assembled into a functional package using conventional heat-sealing equipment. For thicker constructions, add a layer of JetComp 8200 clear or 8201 matte pressure sensitive PET over-laminating film. For Matte finish without adding thickness use Krylon Matte spray.

Available Sizes

- 17" wide x 25' #9505-17-25
- 17" wide x 50' #9505-17-50
- 24" wide x 50' #9505-24-50
- 24" wide x 100' #9505-24-100

Description

- Works on all Epson SureColor P-Series, HP Designjet or Canon imagePrograf printer
- Heat sealable at 210-250 F
- Good moisture and odor barrier for product protection
